J Douglas Ferguson CLC, ChLB, ALC has been a licensed real estate agent/broker since 1991 specializing in land brokerage and development. Doug has a unique perspective in becoming involved in and building a profitable practice in land sales. Past students give him high marks to both--methods of teaching and making the learning process enjoyable.

Water Law in Idaho

4 HR. Course

May 11, 2017 8AM-Noon

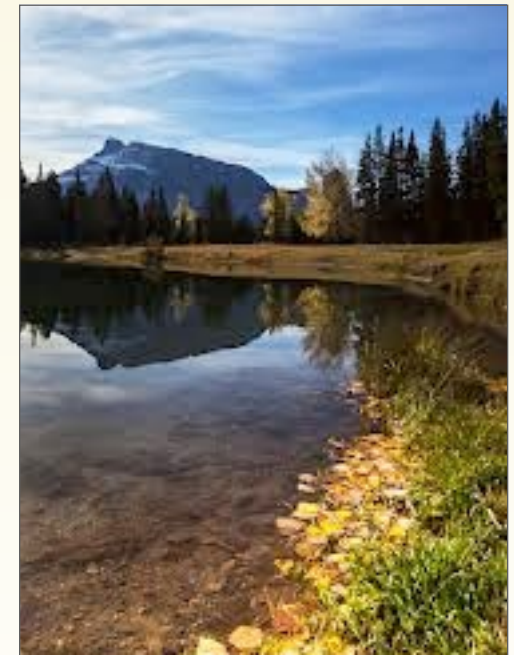

Water is important to land use and valuation—land practitioners, brokers, land use planners, and land owners must consider water rights before any other factor, for all that lives must have water. This course covers the complexities of water rights in Idaho. Discussed are topics relating to Prior appropriation, Legal proceedings of the Snake River Basin adjudication, domestic and municipal rights, abandonment and forfeiture, geothermal rights, surface, ground and stock rights. This course is 4 CE credits for Idaho and Oregon license renewal. E1091

These Course are provided by the American Land Institute and are approved for continuing education of Certified Land Consultants and Chartered Land Brokers

CONSERVATION EASEMENTS - PROTECTING LAND FROM DEVELOPMENT

4 HR. COURSE

May 11, 2017 1PM-5PM

This course will examine the advantages and disadvantages of Conservation easements, the tax policy that promotes the practice, historical review of land control and the long term implications to forever restricting development and other uses of lands in Idaho. This course is 4 CE credits for Idaho and Oregon license renewal. E0937.
